

## MINERAL WOOL ATTACHMENT. LARGE DIAMETER.

3" diameter, high-density polypropylene washer for attaching mineral wool and rigid insulation to various substrates in high wind-load areas.

### PRODUCT FEATURES

- Round 3" dia. plastic washer
- Large diameter prevents crushing of insulation and spans the joints between panels.
- Use with Grip-Deck® ci Screws (all types for steel, wood, or masonry substrates).
- Prevents wind blow-off of insulation.
- Made in USA
